CONTINUOUS ASSESSMENT TASK 3

INTERACTIVE MULTIMEDIA LEARNING ENVIRONMENT PRODUCT DEVELOPMENT - INDIVIDUAL (50%)

Alignment:

HPK3 : Develop courseware or an online interactive multimedia learning environment that ethically integrates current technologies to support teaching and learning.

HPP2 - Cognitive Skills (20%) – C6, KKG7

HPP6 – Digital Skills (30%) – A4, KMD4

Scoring guide:

Select one level for each criterion category. Assign a score based on the criteria statement for each category. The score given is with a maximum value of 10 and a minimum value of 0, set to one decimal place only.

HPP 2 (C6, KKG7) – 20%						
Weightage Criteria	**High Distinction**	**Distinction**	**Credit**	**Moderate**	**Weak**	**Score**
	9.0 – 10.0	**7.5 – 8.9**	**6.0 – 7.4**	**5.0 – 5.9**	**< 5.0**	
1. Assessment, Selection and Preparation of Product Development Process C6, KKG7 10%	• Assessing, selecting, and organizing the product development process through the five phases of ADDIE in a systematic, clear, and interconnected manner. • Each decision is supported by strong justification and evidence and demonstrates significant product improvements and added value.	• Assessing, selecting, and organizing the product development process through the five phases of ADDIE in a systematic and clear manner. • Each decision is supported by appropriate justification and evidence and results in product improvements.	• Assessing, selecting, and organizing the product development process through the five phases of ADDIE but lacking consistency. • The justification, evidence or relationship between phases has several shortcomings.	• The product development process through the ADDIE phases lacks systematic execution. • The process of evaluating, selecting and organizing as well as justifying decisions is limited.	• The product development process through the ADDIE phases is incomplete or lacks systematic execution. • There is no clear process for evaluating, selecting, and organizing product development decisions.	/10

Weightage Criteria	**High Distinction**	**Distinction**	**Credit**	**Moderate**	**Weak**	**Score**
	9.0 – 10.0	**7.5 – 8.9**	**6.0 – 7.4**	**5.0 – 5.9**	**< 5.0**	
2. Creation of Interactive Multimedia Learning Environments C6, KKG7 10%	• Assessing and selecting a highly precise combination of media, activities, digital resources, digital storybooks, formative assessments, and learning supports, including alternatives that enrich the learning experience. • All elements are arranged systematically and clearly to create a learning environment that is highly coherent, interactive and responsive to students' abilities, learning styles and levels.	• Assessing and selecting media, activities, digital resources, digital storybooks, formative assessments, and learning supports that align with the Content Standards (SK), Learning Standards (SP), objectives, and success criteria. • Elements are arranged systematically and clearly to create an interactive learning environment and meet the needs of different students.	• The selection of most learning elements is appropriate, but the process of assessing and selecting alternatives is less clear. • The arrangement of elements is generally systematic but there are some inconsistencies with the objectives or needs of the students.	• The selection of learning elements is only partially appropriate. • Elements are not arranged systematically and clearly and do not take into account differences in students' abilities, learning styles or levels.	• The selection of learning elements is inappropriate or incomplete. • There is no clear evidence of a process of assessing, selecting and organizing to produce a learning environment that meets the needs of students.	/10

HPP 6 (A4, KMD4) – 30%						
Weightage / Criteria	High Distinction	Distinction	Credit	Moderate	Weak	Score
	9.0 – 10.0	7.5 – 8.9	6.0 – 7.4	5.0 – 5.9	< 5.0	
1. Income from Digital Innovation Products A4, KMD4 10%	• Knowledgeable and skilled in applying higher-order thinking skills (HOTS) to produce fully functional, seamless, and intuitive digital products. • The product demonstrates ideas and digital innovation processes that add value, creative and enhance the learning experience beyond the requirements of the assignment.	• Knowledgeable and skilled in applying higher-order thinking skills (HOTS) to produce complete and well-functioning digital products. • The product demonstrates creative digital ideas and processes and adds value to learning.	• Digital products generally work but there are some minor flaws. • The application of knowledge, skills and high-level thinking in generating ideas or digital innovation processes is less consistent.	• Digital products only work on some components. • The application of knowledge and skills in producing digital ideas, processes or innovations is limited.	• The digital product is incomplete or has significant functional problems. • Does not demonstrate clear application of knowledge, skills and high-level thinking in producing digital innovation products.	/10

HPP 6 (A4, KMD4) – 30%						
Weightage / Criteria	High Distinction	Distinction	Credit	Moderate	Weak	Score
	9.0 – 10.0	7.5 – 8.9	6.0 – 7.4	5.0 – 5.9	< 5.0	
2. Organizing Multimedia, Digital Learning Materials and Resources A4, KMD4 10%	• Multimedia, media materials, learning objects, a digital storybook, and digital resources are selected and organized in a highly coherent and strategic manner based on the Content	• Multimedia, media materials, learning objects, a digital storybook, and digital resources are selected and organized in a clear and systematic manner based on the Content Standards	• Most of the multimedia, materials and digital resources are appropriate and well organized but there are some inconsistencies.	• Multimedia, materials and digital resources are poorly organized or only partially appropriate for learning.	• Multimedia, digital materials and resources are very limited, inappropriate or unorganized. • The principles of multimedia learning and	/10

Criteria / **Weightage**	**High Distinction**	**Distinction**	**Credit**	**Moderate**	**Weak**	**Score**
	9.0 – 10.0	**7.5 – 8.9**	**6.0 – 7.4**	**5.0 – 5.9**	**< 5.0**	
3. Production of Interactive Activities and Digital Assessments A4, KMD4 (10%)	• Applying higher-order thinking skills (HOTS) to generate a diverse range of digital ideas and processes through highly meaningful interactive activities and formative assessments. • Interactivity allows students to explore, make choices and build understanding, while digital feedback and support are responsive and provide appropriate learning pathways.	• Producing interactive activities and digital formative assessments that are complete, functional, and aligned with learning objectives. • Students can interact and explore and receive appropriate feedback or learning support.	• Interactive activities and digital assessments are functional, but the interactions or variations are quite limited. • Feedback and learning support are available but do not guide student learning well.	• Digital activities and assessments have limited interactivity or functionality. • Feedback or learning support is only available for some activities.	• Digital activities are hardly interactive or functional. • Assessment, feedback or learning support is incomplete or not in line with learning objectives.	/10
